EMPIRE in APOCALYPSE

Belisarius is a talented Roman General and a troubled man. The truth of his wife's deceit follows him everywhere, from the way his servants won't look him in the eye, to the disrespectful smirks from his fellow generals.

To distract himself, Belisarius throws himself into the ominous challenge before him: reclaiming the Roman lands lost in Italy half a century earlier. But soon he is faced with challenges out of his control; challenges that could threaten the very existence of the Empire he fights for.
